**Hammacher Schlemmer**  
wireless speakers

This is a new wireless outdoor / indoor rechargeable speaker system with UV-stabilizers and water-resistant components. Each speaker has an ergonomic built-in easy grip handle. Just plug in your music player to the transmitter and the speakers can be taken anywhere in the house, patio, garden or wherever you want to enjoy your music. The 2.4 GHz wireless technology transmits audio signals through walls, floors and ceilings up to 150 feet. It comes with a remote control to set volume, bass, and treble.
